

PROPOSED MISSION SUPPORT REQUEST FORMULA 2022-2023 FISCAL YEAR

10% of Regular Giving

It is Synod Council's goal to help congregations move toward proportionate giving based on resources. Realizing that for many congregations this growth process will take years, we propose the 2022-2023 formula. If you are below the current formula we encourage you to take intermediate steps of increasing annually by 1% until you reach the 10% goal.

The official 2022-2023 request, based on the approved formula, will be calculated by the synod accountant and mailed to congregations in October.

We give thanks for everyone's generosity that allows the body of Christ to do more together than we could individually.
